

## **Operator Trainee - Water Treatment Plant - City of Brunswick, Maryland**

Job duties include monitoring and maintaining chemical levels, conducting equipment maintenance and repair, and sampling and lab testing.

This field is currently experiencing a shortage of qualified applicants. We are interested in hiring someone with a mechanical, electrical, or plumbing background, and are willing to train the right candidate who can prove to us they are a hard-working, team player. Operator trainees will obtain a Temporary Class 4 Water Operator's License within the first month of employment, then spend three years working to acquire hours and knowledge to be eligible for a Permanent Class 4 Water Operator's License.

The City covers the cost of training, licensing, and testing fees, and encourages job-specific training of all kinds. We offer competitive pay and a generous benefit package available your first day of employment. We also provide salary increases when certifications are earned.

The position requires lifting, climbing, confined space entry, weekend and shift-work, occasional overtime, and additional compensation for on-call status.

If you possess a valid driver's license, a high school diploma, applicable skills and common sense, and a desire to contribute positively to our organization, submit application to [Assistant@BrunswickMD.gov](mailto:Assistant@BrunswickMD.gov) or 1 West Potomac Street, Brunswick, MD 21716. The City of Brunswick is an Equal Opportunity Employer.
